

**NICRA project of JAU, Targhadia visited and appreciated by scientists of CRIDA, Hyderabad: September 03, 2013.**

Dr. I. Srinivas, Principal Scientist and Dr.R.V.Adake, Sr.Scientist of Central Research Institute for Dryland Agriculture, Hyderabad visited KVK, Targhadia and Maghardwada village (Taluka/District: Rajkot) to evaluate custom hiring center under National Initiative on Climate Resilient Agriculture (NICRA) project on September 03, 2013.

They visited farmers' field and discussed with farmers regarding project. They appreciated the work being done in the project.

03/09/13

Visited KVK and NICRA

Adapted Village to evaluate

Custom Hiring Centre established under  
NICRA. I found working conducting  
under project is going in right direction  
farmers are getting benefit from the  
project. There is a good coordination  
between KVK staff and farmers

to 15/09/13  
3/9/13

Adarsh  
(R.V. Adarsh)  
Scientist, farm Machinery  
CRIDA, Hyd.

3/9/13

I. Srinivas  
Principal Scientist (Farm)

visited to evaluate  
the CTC under NICRA  
The KVK activities improved  
me a lot. Specially the  
farm mechanization and  
Farm management is  
very good. The coordination  
between KVK and NICRA  
farmers is found to  
be very good.

I. Srinivas
